TESTING REPORT: JEREZ, SPAIN

Thursday 4 December 2003

Driver Nick Heidfeld
Chassis EJ13 / 05

Jarek Janis
EJ13 / 04

Heavy rain interfered with test plans for all teams at Jerez today, however Nick Heidfeld and Jarek Janis completed 100 laps between them for Jordan Ford and Heidfeld set the third quickest lap time in changeable conditions. Although the morning started damp and at first began to become dry, the track was still wet from overnight rain and there had been insufficient time for it to dry out completely before continuous heavy rain arrived again - allowing only wet weather tyre and set-up work.

The team hopes for dry weather tomorrow in order to continue the test programme with Nick Heidfeld and Ralph Firman.
